THE BEST CELERIES

McCOY'S GIANT PERFECTION LONG-KEEPING GOLDEN HEART.—A variety of rare merit, never before offered to the public. Mr. John McCoy, a veteran and highly successful market gardener of this city, has, by years of persistent, intelligent and careful selection, succeeded in producing the most desirable type of Golden Heart Celery known to the trade, remarkable for its many long, broad, thick ribs and numerous "inside hearts" of the finest golden color. This variety blanches easily, keeps remarkably long—even until the month of May, in perfect condition. The ribs are unusually solid, firm, crisp, tender and beautiful in appearance. Pkt. 10c., oz. 40c., ¼ lb. $1.25, 1 lb. $4.00. No market gardener should be without it.

NEW IMPROVED GIANT PASCHAL.—We offer the latest and most improved form of this highly valuable new celery. This new variety is of high value to the market gardener. The stalks are very large, heavy, thick, solid, firm, crisp and of a rich, nutty flavor, retaining their freshness longer than any other sort. The heart is of a beautiful golden yellow, very full and attractive. In long-keeping qualities, it is fully equal to the best. Pkt. 10c., oz. 5c., ¼ lb. $1.75, 1 lb. $600.

NEW GOLDEN SELF BLANCHING.—This variety possesses superlative merit. Years of experience have demonstrated it to be the most profitable celery for early market use grown, and for this purpose alone it cannot be too highly recommended. The strain we offer is much superior to that of previous years, being purer; habit close and compact, the heart and ribs are large, solid and of a beautiful, rich golden yellow color, with excellent keeping qualities. Pkt. 5c., oz. 30c., ¼ lb. $1.00, 1 lb. $3.50.

IMPROVED WHITE PLUME—Selected Stock.—Market gardeners find increasing merit in this sort every year. Our strain is remarkable for its large size, purity and fine keeping qualities, and all who buy from us can depend upon getting stock much superior to that offered in previous years. We advise every market gardener to plant at least a portion of his crop of this highly valuable sort. Pkt. 5c., oz. 30c., ¼ lb. 90c., 1 lb. $3.25.

The Only House in America Devoted Entirely to the Market Garden Trade

A WORD TO OUR CUSTOMERS

WHY WE ARE MOST RELIABLE.--Because we are the only seedsmen in the United States who grow seeds **especially for market gardeners.** We give no attention to the retail nor wholesale trade watever. All our time and energy is devoted exclusively to producing the **purest and best qualities** of seeds possible, for the market garden trade. We send out only such strains as are adapted to the wants of the **most critical market gardeners** and **offer nothing** that should disappoint those engaged in this important business.

NOTE CAREFULLY THE REMARKS BELOW

REMIT MONEY WITH ORDER.—Money can be sent safely by Postoffice Order, Express Money Order, Bank Draft or Check.

CASH, POSTAL NOTES, SILVER OR POSTAGE STAMPS, will reach us safely if carefully wrapped and enclosed in letter and **registered.**

ALL EXPENSES of sending money with order will be born by us, and may be deducted from the amount sent.

OUR PRICES include bags, boxes and free cartage to dopot.

SEEDS BY MAIL.—Eight cents per pound and fifteen cents per quart or fraction thereof, must be added to our **wholesale** prices, if seed is to be sent by mail. Packets and ounces will be sent postage free.

New Improved Round Pod Extra Early Red Valentine Bean

BARR'S PHILADELPHIA MAMMOTH ASPARAGUS.—Everybody who ever saw this highly valuable variety pronounces it many times superior to any other known sort. It is beyond question the finest, largest, earliest and most profitable for the market gardener to grow. Stalks frequently measure two inches in diameter, and even when twelve to fifteen inches long, are perfectly tender. The quality is exceedingly fine, growth rapid and remains in good, tender condition several days after being ready to cut. It is very productive, throwing up a perfect mass of very large size stalks of medium green color and very handsome appearance, and invariably commands a much higher price than any other variety Since our introduction of this variety, we have frequently been sold out before the season was half over, so great has been the demand for it. So we request our customers to place their orders with us as early as possible. Pkt. 5c., oz. 10c., ¼ lb. 25c., 1 lb. $1.00, 5 lbs. $4.00; 2-year old roots, per 100, 75c., 1,000, $6.00.

NEW IMPROVED ROUND POD EXTRA EARLY RED VALENTINE BEAN.—Market gardeners will unquestionably find this the best early snap short green pod bean for local market or shipping purposes, it being fully ten days earlier than the old Early Red Valentine, and will often pick thirty-five days from time of planting. The pods are smooth, round, stringless, thickly set, remaining tender a long time after being fit to pull, which is a very valuable feature, Habit of vine, dwarf, very uniform, making little top growth, ripens uniformly, producing an enormous yield. Qt. 25c., ½ pk. 75c , pk. $1.50, bu. $6.00.

WARDWELL'S NEW DWARF KIDNEY WAX BEAN.—In this variety we have the very best wax sort yet introduced; it will sell twice as well and at a higher price than the old, well-known Dwarf German Black Wax or Golden Wax, the pods being longer, broader and of a brighter yellow color, much superior in quality, tender and stringless. The vines are of vigorous growth, hardy and remarkably productive, pods ripen evenly from the blossom to stem end, and are born well up from the ground. We particularly recommend this valuable sort to all our market garden friends. Qt. 35c., ½ pk. $1.25, pk. $2.00, bu. $8.00.

If you buy Anything in Large Quantity, write us for Prices and State Quantity Wanted

IMPROVED AMERICAN GROWN CABBAGE SEEDS

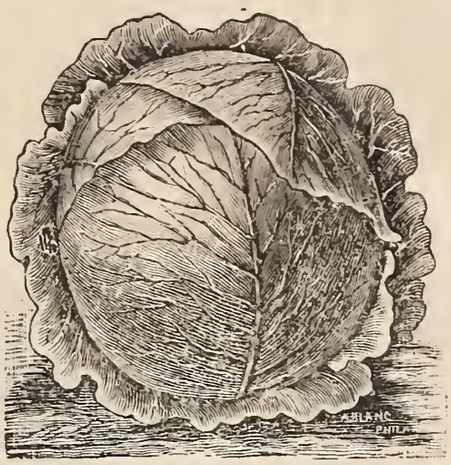
Long Island Beauty Wakefield

LONG ISLAND BEAUTY WAKEFIELD.—This is universally conceded to be the best early cabbage in cultivation. The heads are pyramidal in shape, have a blunted or rounded peak, size large, outer foliage small and capable of being planted very close. It pleases us to state that we have a really superior strain for our Market Garden friends, and we hope they will avail themselves of the opportunity to **get our extra stock** of this valuable early variety.

Pkt. 5c., oz. 30c., ¼lb. $1 00, 1lb. $3 50, 2lbs. $6 50.

NEW CHAMPION LATE DRUMHEAD.—(Private stock raised by Champion.) Our customers will find this the most reliable heading cabbage of the drumhead type, in existence, 95 to 98 prime marketable heads out of a hundred is an average yield. Mr. Champion held this seed at $15 00 per pound when he grew it in small quantities for local sales. It is a medium, early and late variety, being about ten days earlier than our celebrated **Champion Late Flat Dutch.** Heads firm, medium size, fine grain and of very delicate quality, sets very close to the ground, outer leaves few and grow close to head, stands heat and drouth well, very hardy, and an excellent keeper.

Pkt. 10c., oz. 30c., ¼lb. $1 00, 1lb. $4 00, 2lbs. $7 50.



Improved Early Drumhead

IMPROVED EARLY DRUMHEAD.—We have used the utmost care in the selection of heads for seed purposes, and have greatly improved this variety which we now have as near perfect as is possible to get it. It is nearly twice as large, and about one week later than our New Long Island Beauty Wakefield. There is certainly no variety superior to this for a second early sort.

Pkt. 5c., oz. 25c., ¼lb. 75c., 1lb. $3 00.

New Champion Late Drumhead

New Champion Late Flat Dutch

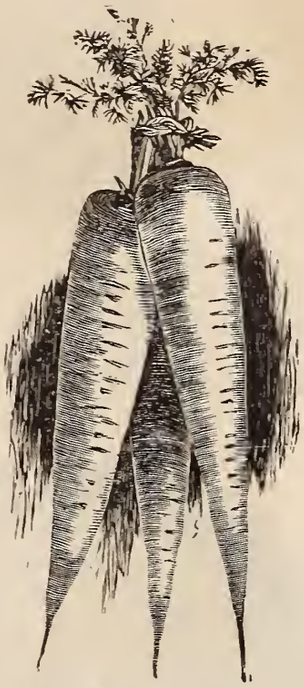
NEW CHAMPION LATE FLAT DUTCH.—(Private stock, grown by Champion). We know this to be the finest strain of late Flat Dutch that has ever been offered; it will produce a greater weight of cabbage from a given space than any other sort, due to the fact that the heads are enormously large and remarkably solid, with scarcely any outer leaves. The heads set close to the ground, the heart stem and ribs are small, quality the finest; it is the hardiest and best-keeping sort we ever knew of in our thirty years experience. This variety is a few days later than our celebrated **New Champion Late Drumhead.** We feel safe in saying it is the best stock of Late Flat Dutch Cabbage ever offered to our Market Garden friends. If you haven't had it, don't fail to get it. Pkt. 10c., oz. 30c., ¼lb. $1 00, 1lb. $4 00, 2lbs. $7 50.

CABBAGE WORM.—It is said that if ¼lb. salt petre be dissolved in four gallons of water, and the solution freely sprinkled over the plants the worm will speedily disappear.

☞ *Every Market Gardener knows the importance of having good Cabbage Seed, but many do not know that such can always be obtained from us.* ☜

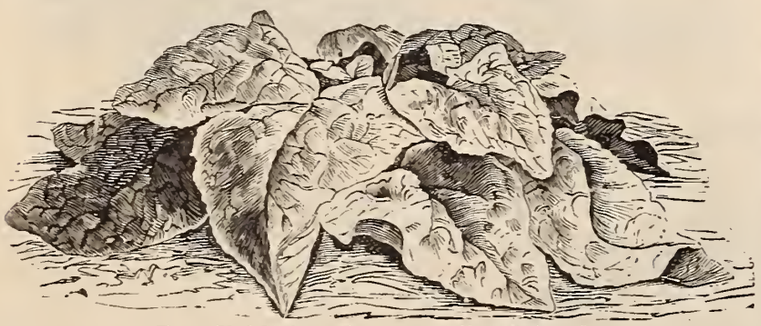
French Luc Half Long Scarlet Carrot

FRENCH LUC HALF LONG SCARLET.—The color of this valuable new sort is a rich shade of orange red, and in shape and size midway between the early scarlet horn and long orange. Top small considering the size of the roots, which are smooth, straight and free from roughness, is early, without core, very tender and sweet. Admirably adapted to either glass or open ground culture, is a fine keeper,
Oz. 10c., ¼lb. 30c., 1lb. $1 00, 2lbs. $1 80.



Saint Vallery Long Red Carrot

ST. VALLERY LONG RED CARROT.—The size of this splendid sort is about 9 inches long by 2 to 2¼ inches in diameter. The color is of a beautiful rich red orange, grows very smooth and straight; flesh even and fine. An excellent sort and one that we highly recommend for general crop. Oz. 10c , ¼lb. 25c., 1lb. 80c.



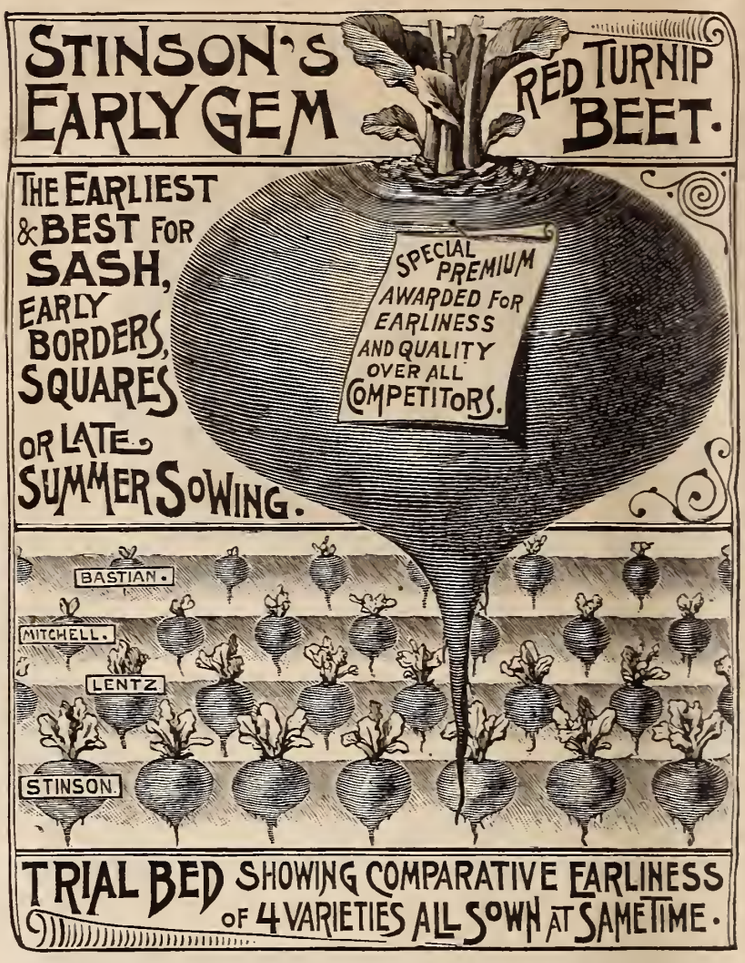
True Enkhuizen Long-Standing Spinach

TRUE ENKHUIZEN LONG-STANDING SPINACH.—This is undoubtedly the best sort for sowing in the spring as it will stand fully sixteen days longer before going to seed than any other The leaves are large, round, unusually thick, deeply curled, tender, and of a fine dark green color. 1lb. 25c., 5lbs $1 00, 1 bush. $6 00.

Improved Extra Early Eclipse Beet

IMPROVED EXTRA EARLY ECLIPSE BEET.—This very early **dark red** variety has many points in its favor. The top is somewhat too large for growing under sash, but for open ground planting it will be found the finest **dark red** extra early sort obtainable, much superior to the Egyptian in quality and much more saleable. It is as early as the later named sort, and will be found valuable for sowing in place of the Perfection Half Long for an autumn or winter sort.

¼lb. 15c., 1lb. 50c., 10lbs. $4 50.



Stinson's Extra Early Gem Red Turnip Beet

STINSON'S EXTRA EARLY GEM RED TURNIP BEET.—Seed grown by William Stinson, Esq. It seldom falls to the happy lot of any seedman to have the honor to introduce a novelty of such great merit as this. Mr. Stinson's success and fame as an early beet grower for the Philadelphia market has extended over a long period of years, and the giving of this grand new early beet to the public through us—we having purchased his entire stock—he considers the crowning effort of his life. His neighbors have frequently offered him fabulous sums for this seed so highly do they prize it for its extreme earliness and quality.

Its especial valuable features consist in its being two weeks earlier than the Bastian, Lentz or Mitchell strain together with its being much better adapted to growing under sash owing to its very few and small leaves, thus rendering it very profitable to the Market Gardener. For a general out-door early crop, or for sowing in July for a late Autumn or Winter sales it is unsurpassed, and far more profitable than the Perfection Half Long. The quality is the highest, being very tender, sweet and juicy, even when the leaves die off from age. It does not become tasteless, "woody," or stringy when fully grown as many other sorts do. Market Gardeners will find it **the ideal extra early beet.** Oz. 10c., ¼lb. 30c., 1lb. $1 00, 5lbs. $4 00, 10lbs. $7 50.

New Jersey Improved Large Purple Smooth Stem Egg Plant

NEW JERSEY IMPROVED LARGE PURPLE SMOOTH STEM EGG PLANT.—Those desiring to get the finest of all Egg Plants, will find in this strain the very acme of perfection in earliness, quality, size, color and productiveness, very desirable for shipping, as it does not turn yellow. Pkt. 10c., oz. 40c., ¼lb. $1 50, 1lb. $5 00.

FRENCH RED FORCING CARROT.—Three years' careful trial by ourselves and many experienced Market Gardeners proves this to be the best sort for growing under glass. It attains a length of 3½ to five inches, and about 1¼ inches in diameter, slightly pointed, the top is very small, which enables it to be sown very thickly; grows very smooth, quality the finest.
Oz. 15c., ¼lb. 40c., 1lb. $1 50.

Improved White Strasburg Radish

Felton's Early White Box Radish

FELTON'S EARLY WHITE BOX RADISH —(Grown by Felton).—This is the best early white variety for growing under glass, on early borders or on squares. It is likewise a great favorite with many Philadelphia Market Gardeners for sowing throughout the summer or early autumn months. It is much superior and entirely distinct from any other white turnip variety. Its points of superiority are **remarkably short top rapid growth, perfect globe turnip shape, extra fine quality**, and showing no disposition whatever to become pithy with age, remaining solid and juicy long after fully grown. Owing to its very new short leaves it can be grown very closely in the row without causing the leaves to "draw." Oz. 10c., ¼lb. 35c., 1lb. $1 25.

IMPROVED WHITE STRASBURG RADISH.—Our stock of this excellent summer sort is better than ever before, the skin and flesh are of an almost transparent white, very tender and a delightful pungent taste; remains in a tender condition unusually long. Can be pulled in thirty-five days from time of sowing. The top being small it can be grown very close, this making it very productive and profitable. Oz. 10c., ¼lb. 20c., 1lb. 70c.

New Scarlet Olive Radish

NEW SCARLET OLIVE RADISH.—This is unquestionably the best red forcing variety for growing under glass; also very desirable for outdoor planting. It is of a brilliant scarlet color with very short and small leaves, tender, crisp, and in quality all that could be desired. Will mature in thirty days, and can be grown very thickly in the row; unlike other sorts it sells well throughout the year. Should be pulled when not more than two-thirds grown. Oz. 10c., ¼lb. 25c., 1lb. 75c.

Sir Ayton Castle Leek

SIR AYTON CASTLE LEEK.—It gives us great pleasure to introduce this new and highly valuable leek to our American Market Gardeners now for the first time. This variety is planted almost exclusively now in England, where leeks are grown to the highest state of perfection. This sort grows **very long and thick**, is unusually fine-grained, tender and hardy. The foliage is of a dark glossy green, keeps well, and will yield double the quantity per acre of any other sort. Oz. 25c., ¼lb. 75c., 1lb. $3 00.

NEW PARAGON WHITE SUMMER RADISH.—A very distinct and highly-desirable selection from the old White Summer Turnip. The top is much smaller, fully one week earlier, and shape between a globe and an olive. Quality exceedingly fine, very slow to run to seed. Sells better and commands a higher price than any other white summer sort. We unhesitatingly pronounce it the very best type of white summer Radish on the market, and earnestly recommend it to all our Market Garden friends. Oz. 10c., ¼lb. 30c., 1lb. $1 00.

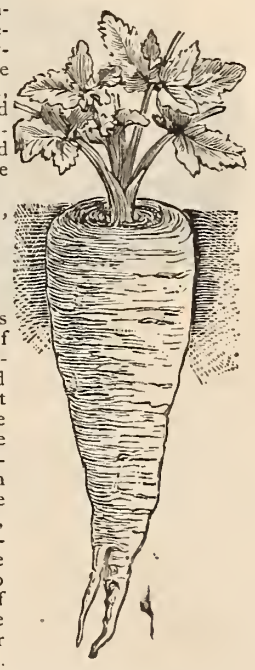
New Mississippi Model Tomato, the Best of all Sorts for Market

NEW MISSISSIPPI MODEL TOMATO —This excellent new variety comes from Silver Springs, Miss., the most famous tomato-growning section of the United States, and is the result of a cross between the well-known Livingston's Beauty and the Early Bermuda. It is valuable on account of its extreme earliness, perfect freedom from cracking and ability to stand long-distance shipping without injury. For solidity, fine form, beautiful color and absence of rot among the early fruits it is without a peer. Careful comparison proves it to be the most productive sort known, the fruit is large, smooth and exceedingly firm, quality extra, and always sells at a hlgher price than any other sort. It is pre-eminently the best market and shipping sort we know of.
Oz. 35c., ¼lb. $1 00, 1lb. $4 00.

Improved Mammoth Sandwich Island Salsify

IMPROVED MAMMOTH SANDWICH ISLAND SALSIFY.—Our improved strain is remarkably fine, growing to an immense size, very smooth, white, small top and unusually good quality. Our improved type is worth double that of any other.
Oz. 15c., ¼lb. 50c., 1lb. 2 00.

IMPROVED IDEAL HOLLOW CROWN PARSNIP.—This strain is the result of years of careful selection by a noted parsnip specialist. It embodies all the points of excellence desirable to a Market Gardener in smoothness, shape true hollow crown, extra sweet rich flavor, beautiful white color, and is not too long nor too short. If you grow parsnips be sure and get your seed from us. ¼ lb. 20c., 1 lb. 65c.



Improved Ideal Hollow Crown Parsnip

New Mammoth Long-Standing Winter Endive

NEW MAMMOTH LONG-STANDING WINTER CURLED ENDINE—Repeated trials have proven this sort to be the finest, largest and best-keeping winter endine grown; it is also equally good for summer use. Its general appearance is very attractive, and it will command sales when other sorts will not. Oz. 30c., ¼lb. $1 00, 1lb. $4 00.

Hammersmith Summer Drumhead Lettuce

HAMMERSMITH SUMMER DRUMHEAD LETTUCE.—This exceedingly fine new variety is a head lettuce of excellent quality, with advantages that commend it to all, either as an out-door sort or for growing in hot houses.

It forms large solid heads of a rich light golden color, stands the summer heat well without going to seed, and is an excellant keeper after being cut, which is a highly valuable feature in long-distance shipping. The heads are large, firm, very tender, free from bitterness and attractive in appearance. We have a limited quantity only.

Pkt. 10c., oz. 40c., ¼lb. $1 25, 1lb. $5 00.

Philadelphia Round Yellow Danvers Onion

ONION SEED FOR SETS

This is an earlier variety than Yellow Dutch or Strasburg, is a very fine keeper, and an excellent market sort. It is a very abundant cropper and admitted by all to be the finest yellow sort for sowing for "Onion Sets." Our entire stock being Philadelphia grown, can be relied upon in every particular.

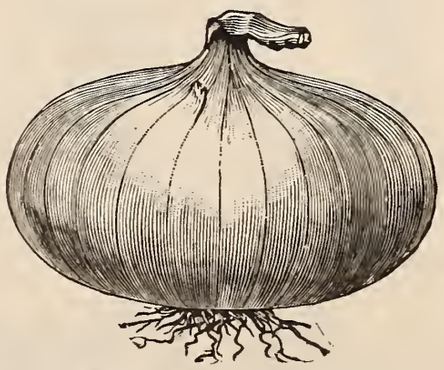
Oz. 15c., ¼lb. 40c., 1lb. $1 50 5lbs. $6 25.

PHILADELPHIA WHITE SILVER SKIN ONION.—This is the leading white flat sort for growing either large Onions or sets.

The color is pure white, flavor mild, an excellant keeper, and will sell when the yellow sorts are refused.

The shape and size is similar to that of the yellow Strasburg.

Oz. 20c., ¼lh. 65c., 1lb. $2 50, 5lbs. $12 50.



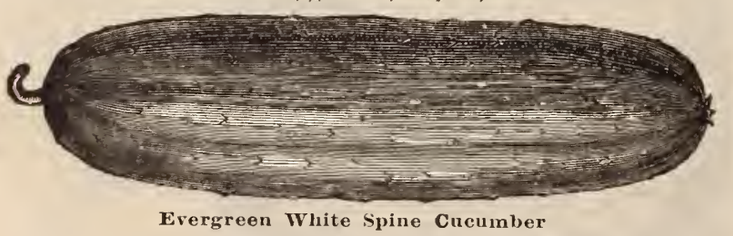
Philadelphia White Silver Skin Onion

SPANISH KING OR PRIZE-TAKER ONION.—A very large yellow globe variety of mild flavor, producing full size onions the first year from seed if sown early.

Oz. 25c., ¼lb. 75c., 1lb. $2 50.

MAMMOTH SILVER KING ONION.—A very large white flat growing variety of mild flavor, producing full size onions the first year from seed if sown early.

Oz. 20c., ¼lb. 60c., 1lb. $2 00,



Evergreen White Spine Cucumber

EVERGREEN WHITE SPINE CUCUMBER.—This is the earliest and finest formed of all the strains, and the best sort for home market or shipping. It is smooth, of a deep sea-green color, tender, crisp, remains green on the vine and after picking, and in fact *never turns yellow*. It grows extra long, is very hardy, early, remarkably prolific, and attractive in appearance. Oz. 10c, ¼lb. 25c., 1lb. 80c., 5lbs. $3 50.

DUTCH ERFURT PARSLEY.—Where Market Gardeners find it desirable to have a curled parsley that will not turn yellow from the extreme heat of summer or the extreme cold of winter when grown in cold frames, this sort will be found just the thing. Oz. 10c., ¼lb. 30c., 1lb. $1 00.

New French Monitor Parsley

NEW FRENCH MONITOR PARSLEY.—We wish to call especial attention to our **French Monitor Parsley**, for the reason that it is much superior to all other varieties. In color it is a beautiful brilliant green, leaf fronds large, delicately cut and handsomely curled; the plant is half dwarf, hardy, a heavy yielder, being greatly improved by frequent cutting.

It will be found especially well adapted to growing in greenhouses as well as out-door. For "bunching" or "pot herbs" it surpasses all others.

Oz. 10c., ¼lb. 30c., 1lb. $1 00.

Moore & Simon's Prime Extra Early Peas

MOORE AND SIMON'S PRIME EXTRA EARLY PEAS.—In earliness and yield our selection of this important seed is not surpassed, and in fact its equal can not be had elsewhere since we control the entire stock. In height it ranges from 20 to 24 inches.

The pods are large, of a beautiful shade of green, and well filled with large, smooth peas of splendid flavor. From the fact that they are grown 89 miles farther north than any other stock insures them to be the hardiest, earlier, more productive and less vine than those grown in New York or Lower Canada.

They will be found of equal value for late summer or autumn sowing, or where a pea crop is required to come off in the shortest possible time. The entire crop can be gathered in two pickings, and in some instances even in one. The illustration above which is from nature will give a very correct idea of their habit of growth.

Qt. 25c., ½ pk. 60c., 1 pk. $1 00, 1 bush. $4 00.
